## Partnership & Problem SOLVING

Engineering great solutions for our customers is at the heart of everything we do. T&T Precision are dedicated to understanding each client's needs and project management requirements in order to help customers gain an advantage through increased output, reduced energy usage, lower cost of ownership and speed to market.

Building close, collaborative relationships with our customers, we gain a deep understanding of their engineering needs and then mobilise our resources and expertise to deliver distinctive products and solutions.

## Engineering GREAT Precision Solutions

Wherever precision, speed and engineering reliability are essential, our knowledge, problem-solving capabilities and portfolio of high performance products enables us to deliver great solutions which help customers tackle the world's most demanding engineering challenges.

T&T Precision specialises in the manufacture of precision machined components to customer specification and requirements, from batch production runs to one-off prototypes and development work.

We now work with many of the world's most progressive manufacturing companies in a variety of sectors:

**AEROSPACE**

**MEDICAL DEVICES**

**FOOD & DRUG**

**PLASTICS**

## Some Clients We Do BUSINESS With

We offer bespoke precision engineering and innovative solutions at every stage of a project from the simplest requirements to highly complex projects, design and processes. Our services include:

- Design for Manufacture
- Reverse Engineering
- Precision Engineering
- New Product Introduction
- Design Consultancy
- Tooling, Jigs & Fixtures
- Robot Holding for Work Holding Solutions
- Quality Control
- Manufacturing Expertise
- Exceptional Service and Reliability

## Why **WORK** With Us?

We aim not only to meet client expectations but to delight our customers by offering technical leadership, innovation and 50 years combined expertise to each and every project.

T&T Precision is committed to understanding and meeting the unique needs of our clients and the industries we serve, delivering pioneering precision engineering products and bespoke solutions. Close collaboration with customers, a support environment that is reliable and flexible along with a search for innovation that offers “Real Engineering Advantage”, has resulted in our clients coming back to us time and time again.

**Specialist Knowledge • Unique Solutions • Improved Performance**
